State

(a) _____

(b) _____

GENERAL INFORMATION

YES NO

4. (a) Is translator applicant the licensee of primary station?

☒ ☐

(b) If answer to 4(a) is No, has written authority been obtained from the licensee of the station whose programs are to be retransmitted?

☐ ☐

5. Station Identification.

The Applicant certifies that it will comply with applicable station identification rules. See Sections 73.1201, 74.783 and 74.1283 of the Commission's Rules.☒ ☐

6. Is type approved broadcast equipment being specified?

☒ ☐

If No, indicate date equipment was submitted to FCC Laboratory for approval.

7. Would a Commission grant of your application be a major action as defined by Section 1.1305 of the of the Commission's Rules?

☐ ☒

If Yes, attach as Exhibit No. _____ the required statement in accordance with Section 1.1311 of the Commission's Rules.

If No, explain briefly. None of the provisions of Section 1.1305(a) is applicable.

8. If the application is for a new FM translator, have any funds, legal or engineering services or anything else of value been furnished, directly or indirectly, by the licensee, or permittee of any FM broadcast station or any person associated with such station?

N/A

☐ ☐

If Yes, attach an explanation as Exhibit No. _____, identifying the source and nature of the financial support or assistance.

Applicant's Name

PENINSULA COMMUNICATIONS, INC.

1. Applicant is (check one of the following):

☐ an individual ☐ a general partnership ☐ a limited partnership ☒ a corporation ☐ other

2. If the applicant is an unincorporated association or a legal entity other than an individual, partnership or corporation, described in Exhibit No. ____ the nature of the applicant.

CITIZENSHIP AND OTHER STATUTORY REQUIREMENTS

YES NO

3. (a) Is the applicant in compliance with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments?

☒ ☐

(b) Will any funds, credit, etc., for the construction, purchase or operation of the station(s) be provided by aliens, foreign entities, domestic entities controlled by aliens, or other agents?

☐ ☒

If yes, provide particulars as Exhibit No. ____ .

4. (a) Has an adverse finding been made, adverse final action taken or consent decree approved by any court or administrative body as to the applicant or any party to the application in any civil or criminal proceeding brought under the provisions of any law related to the following: any felony, antitrust, unfair competition, fraud, unfair labor practices or discrimination?

☐ ☒

(b) Is there now pending in any court or administrative body any proceeding involving any of the matters referred to in 4(a)?

☐ ☒

If the answer to 4(a) or 4(b) is Yes, attach as Exhibit No. ____ , a full disclosure concerning the persons and matters involved, identifying the court or administrative body and the proceeding (by dates and file numbers), stating the facts upon which the proceeding was based or the nature of the offense committed, and disposition or current status of the matter.

YES NO

5. Has the applicant or any party to this application had any interest in:

(a) an application which has been dismissed with prejudice by the Commission?

☐ ☒

(b) an application which has been denied by the Commission?

☐ ☒

(c) a broadcast station, the license for which has been revoked?

☐ ☒

(d) an application in any commission proceeding which left unresolved character issues against the applicant?

☐ ☐

If the answer to any of the questions in 5 is yes, state in Exhibit No. ____ the following:

- (i) Name, address and percentage of ownership in applicant;
- (ii) Nature of interest or connection, giving dates;
- (iii) Call letters of stations or file number of application or docket number;
- (iv) Location.

LEGAL QUALIFICATIONS

Multiple Applications

YES NO

6. The applicant certifies that there is no other application pending that would be directly mutually exclusive with this application in which this applicant has an interest of one percent or more or in which any party to this application is an officer, director or has an interest of one percent or more, direct or indirect.

☒ ☐

If no, this application cannot be accepted for filing.

Real Party In Interest Certification

7. The applicant certifies that no agreement, either explicit or implicit, has been entered into for the purposes of transferring or assigning to another party, any station construction permit or license or interest therein that is awarded as a result of a random selection or lottery.

☒ ☐

If No, this application cannot be accepted for filing.

Site Certification

8. The applicant certifies that it has contacted an authorized spokesperson for the owner of the rights to the proposed transmitter site and has obtained reasonable assurance that the site will be available for its use if this application is granted.

☒ ☐

The person is ALASCOM, INC. who can be contacted at the following address and telephone number.

County KENAI PENINSULA BOROUGH

Address or other description of location:

Mile 3.5 Kenai Spur Rd., ALASCOM
Radio Relay Site, Soldotna, Alaska

Geographical coordinates of transmitting antenna
to nearest second

North Latitude 60° 31' 57" West Longitude 151° 04' 51"

Attach as Exhibit No. _____ a map or maps (preferably topographic, if obtainable, such as Geological Survey quadrangles) for of the area of the proposed transmitter location shown drawn thereon the following data: NO CHANGE SINCE FILING

a. Scale of miles.

b. Proposed transmitter location accurately plotted.

c. Principal community to be served by the proposed station, clearly identified and labeled.

3. Transmitter:	Make NO CHANGE	Type No.	Length [REDACTED]	Output Power kw.
4. Transmission line:	NO CHANGE			Rated efficiency E for length given (decimal fraction)
5. Transmitting antenna <input type="checkbox"/> Directional <input type="checkbox"/> Non-Directional				
Manufacturer NO CHANGE SINCE FILING		Model ¹		Description ¹
Orientation ²	Height above ground ³	Elevation of Site ⁴	Power gain G (multiplier) in lobe of maximum radiation relative to a halfwave dipole. ⁵	

Effective radiated power (ERP)
(ERP=P X E X G) _____ kw.

NO CHANGE SINCE FILING

Height of antenna radiation center above mean sea level _____ ft.

¹Give basic type using general descriptive terms such as half-wave dipole, "bow-tie" with screen, corner reflector, 10 element Yagi, 4 element in-phase array, two stacked 5 element Yagis, etc.

²Show the direction of the main radiation lobe in degrees with respect to true north in a 360 degree horizontal azimuth, numbered clockwise, with true north as zero azimuth.

³Show height to topmost portion of structure, including highest top mounted antenna and beacon if any.

⁴Show the ground elevation above mean sea level at the base of the transmitting antenna supporting structure.

⁵Give the actual power gain toward the radio horizon.

6. Attach as Exhibit No. _____ a vertical plan sketch for the proposed total structure(s) including supporting structure(s), giving height of center of radiation above ground, overall height of structure above ground, including lighting beacon (if any) and height above mean sea level in feet for all significant features for BOTH RECEIVING AND TRANSMITTING ANTENNAS. Also indicate any horizontal separation between receiving and transmitting antennas.

NO CHANGE SINCE FILING

7. Will the proposed antenna supporting structure be shared with another station or stations of any class?

If Yes, list the call signs and class of such stations.

☐ YES ☐ NO

8. Attach as Exhibit No. _____ a polar diagram of the radiation pattern (relative field) of the transmitting antenna showing clearly the correct relationship between the major lobe or lobes and the minor lobes of radiation and a tabulation of the pattern at every ten degrees and all maxima and minima. Applicants proposing use of multiple transmitting antennas shall submit a composite radiation pattern. If a non directional transmitting antenna will be employed, i.e. an antenna with an approximately circular radiation pattern, check here ☐ and omit polar diagram.

NO CHANGE
SINCE FILING

9. Has FAA been notified of proposed construction?

☐ YES ☐ NO

If Yes, give date and office where notice was filed.

NO CHANGE SINCE FILING

10. Unattended operation:

- a. Is unattended operation proposed?

NO CHANGE SINCE FILING

☐ YES ☐ NO

If Yes, and this application is for authority to construct a new station or to make changes in the facilities of an authorized station which proposes unattended operation for the first time, applicant will comply with the several requirements of Section 74.734 (TV Translators) or Section 74.1234 (FM Translators) of the Rules concerning unattended operation.

- b. In space below state name, address and telephone number of a person or persons who may be contacted in an emergency to suspend operation of the translator should such action be deemed necessary by the Commission.

14. Overall height above ground: 90, 170, 235, 300'
15. Main radiation lobe oriented: 90, 170, 235, 300'
16. Obstruction marking specifications: In accordance with the following paragraphs of FCC Form 715
(attached):
17. Conditions: In accordance with the following paragraphs of FCC Form 715
(attached):

The Commission reserves the right during said license period of terminating this license or making effective any changes or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained, so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the terms of this license, render such service as will serve public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the rights herein granted shall be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of the licensee, if a corporation, to any person without the written consent of the Commission. This license is subject to the right of use or control by the Government of the United States conferred by Section 806 of the Communications Act of 1934.

bj = Dated: 3-11-86

Federal
Communications
Commission

EXHIBIT A - 1

Applicant is currently licensee of this FM Translator Station, K265BJ and is hereby making application to change the output channel from 100.9 MHz (265A) to 104.9 MHz (285A). THIS IS THE ONLY CHANGE REQUESTED. All other technical aspects of the currently operating facility will remain unchanged. The change is requested for the following reasons:

- 1) Applicant is licensee of KGTL-FM, the primary station which is being translated. Applicant is standardizing all of the FM translators which rebroadcast KGTL-FM to the same output channel, 104.9 MHz (285A) in each city where KGTL-FM is rebroadcast. This includes Kodiak, (K285AA) Alaska and Homer, Alaska (where applicant has filed to change frequency from 103.9 to 104.9 MHz (K280CU)).
- 2) The second consideration is that the current output channel of 100.9 MHz falls midway between the only two local FM stations: KWHQ 100.1 MHz and KPEN-FM 101.7 MHz. With relatively low power in comparison to these two local signals, it is sometimes difficult to find the signal on inexpensive receivers with poor selectivity. Therefore, a move up the dial to a clear spot will greatly improve the reception to more listeners on the requested new channel of 104.9 MHz. There are no conflicts in using 104.9 MHz, since it meets all clear channel spacing requirements plus 3 adjacent channels both above and below the proposed frequency. The nearest signal is "KNIK" (FM) in Anchorage, more than 65 miles away on 105.3 MHz.

Does the applicant propose to employ five or more fulltime employees?

☐ YES ☒ NO

If the answer is Yes, the applicant must include an EEO program called for in the separate 5 Point Model EEO Program.

Section VIII

Certification

Has or will the applicant comply with the public notice requirement of Section 73.3580 of the Commission's Rules?

☒ YES ☐ NO

The APPLICANT hereby waives any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all exhibits are a material part hereof and incorporated herein.

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

In accordance with Section 1.65 of the Commission's Rules, the APPLICANT has a continuing obligation to advise the Commission, through amendments, of any substantial and significant changes in information furnished.

**WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT.
U.S. CODE, TITLE 18, Section 1001.**

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

**FCC NOTICE TO INDIVIDUALS REQUIRED BY PRIVACY ACT
AND THE PAPERWORK REDUCTION ACT**

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The principal purpose for which the information will be used is to determine if the benefit requested is consistent with the public interest. The staff, consisting variously of attorneys, analysts, engineers and application examiners, will use the information to determine whether the application should be granted, denied, dismissed, or designated for hearing. If all the information requested is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Accordingly, every effort should be made to provide all necessary information. Your response is required to obtain the requested Authority.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. 552a(e)(3) AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

May 6, 1991

Ms. Donna R. Searcy
Secretary
Federal Communications Commission
1919 M Street, N.W.
Washington, D.C. 20554

Dear Ms. Searcy;

Transmitted herewith, in triplicate, on behalf of Peninsula Communications, Inc. is an FCC Form 349 application seeking a modification in the output frequency for FM translator K285DT to Channel 283 at Soldotna, Alaska. The application is accompanied by a check in the amount of \$425.00 in payment of the application processing fee.

The Applicant is aware that there is a freeze on the filing of applications proposing new FM translators or major changes in the facilities of existing translators pursuant to Report And Order in MM Docket No. 88-140, 5 FCC Rcd 7212 (1990). This freeze will not presently be lifted until June 1, 1991 pursuant to the Commission's Order, DA 91-455 (released April 22, 1991).

Peninsula hereby respectfully requests a waiver of the Commission's rules and policies to allow for the filing and acceptance of this application in advance of the lifting of the freeze. The application proposes a necessary change in the output frequency of the FM translator in order to allow it to continue operation. Because of the limited construction season in the State of Alaska it is imperative that the Commission begin the processing of the application as soon as possible in order for construction on the station to commence prior to the on-set of Winter.

The Commission has long recognized the need for additional broadcast services in the State of Alaska. This need has evolved into a policy of granting liberal waivers of the Commission's broadcast rules, including in the context of applications for new FM translators and major changes in facilities of existing stations. See, Wrangell Radio Group, 75 FCC 2d 404 (1979). This policy has become known as the "Alaska Exception" for FM translator applications.

Letter to Ms. Donna R. Searcy
May 6, 1991
Page 2

Peninsula respectfully requests that its subject application be accepted for filing and processed in advance of the lifting of the FM translator application "freeze" under this policy. The public interest will be served by such a waiver in that it will allow Peninsula to continue to operate the FM translator and continue to help provide expanded broadcast services in the State of Alaska. Without a grant of the requested waiver it is doubtful that Peninsula will be able to modify the facilities of the subject FM translator until the Summer of 1992, and it may be forced to discontinue operation until that time.

Very truly yours,

Peninsula Communications, Inc.

Orientation of main lobe ²	Overall structure height above ground ³	Elevation of Site ⁴	Power gain G (multiplier) in lobe of maximum radiation relative to a halfwave dipole ⁵	
NO CHANGE	NO CHANGE meters	NO CHANGE meters	NO CHANGE	

Effective radiated power (ERP) (ERP=P X E X G) _____ kilowatts Height of antenna radiation center above mean sea level _____ meters

- 1 Give basic type using general descriptive terms such as half-wave dipole, "bow-tie" with screen, corner reflector, 10 element Yagi, 4 element in-phase array, two stacked 5 element Yagis, etc.
- 2 Show the direction of the main radiation lobe in degrees with respect to true north in a 360 degree horizontal azimuth, numbered clockwise, with true north as zero azimuth.
- 3 Show height to topmost portion of structure in meters, including highest top mounted antenna and beacon if any.
- 4 Show the ground elevation above mean sea level in meters at the base of the transmitting antenna supporting structure.
- 5 Give the actual power gain toward the radio horizon.

6. Attach as an Exhibit a vertical plan sketch for the proposed total structure(s), including supporting structure(s), giving height of center of radiation above ground, overall height of structure above ground, including lighting beacon (if any) and height above mean sea level in meters for all significant features for BOTH RECEIVING AND TRANSMITTING ANTENNAS. Also indicate any horizontal separation between receiving and transmitting antennas. **NO CHANGE IN LICENSED EXISTING FACILITIES**

Exhibit No.
No Change

7. Will the proposed antenna supporting structure be shared with an AM radio station?

☐ Yes ☒ No

If yes, list the call signs and class of such stations.

8. Attach as an Exhibit a polar diagram of the radiation pattern (relative field) in the horizontal plane of the transmitting antenna showing clearly the correct relationship between the major lobe or lobes and the minor lobes of radiation and a tabulation of the pattern at every ten degrees and all maxima and minima. Applicants proposing use of multiple transmitting antennas shall submit a composite radiation pattern. If a non-directional transmitting antenna will be employed, i.e., an antenna with an approximately circular radiation pattern, check here and omit polar diagram and tabulation. If the antenna manufacturer and model number are on the Commission's list of common "off-the-shelf" directional antennas, check here and omit polar diagram and tabulation.

Exhibit No.
No Change

NO CHANGE IN LICENSED EXISTING FACILITIES

9. Are there any terrain features between the proposed transmitting site and the community to be served which would interfere with line-of-sight transmission to any part of the principal community?

☐ Yes ☒ No

If the answer is "Yes", attach as an Exhibit a description of the extent of the area affected.

Exhibit No.
No Change

10. Is the area to be served by the booster within its primary station's predicted 1 mV/m contour?

☐ Yes ☐ No

Submit as an Exhibit a map showing the primary station's predicted 1 mV/m contour. If the primary station is authorized with facilities in excess of those specified by Section 73.211 of the Commission's Rules, see Note to 47 C.F.R. 74.1231(h).

Exhibit No.
N/A

11. For booster station applicants only, attach as an Exhibit a map (Sectional Aeronautical Chart or equivalent) that shows clearly, legibly, and accurately, and with latitude and longitude markings and a scale of distance in kilometers:

Exhibit No.
N/A

(a) The proposed booster 1 mV/m contour; and

(b) the 1 mV/m contour of the licensed main facility with which the applied-for facility will be used.

12. For booster station applicants only, supply terrain and coverage data (to be calculated in accordance with 47 C.F.R. Section 73.313)

Source of terrain data: (check only one box below)

☐ Linearly interpolated 30-second database (Source _____)

☐ 7.5 minute topographic map

☐ Other (briefly summarize)

Radial bearing (degrees True)	*	0	45	90	135	180	225	270	315
Height of radiation center above average elevation of radial from 3 to 16 km (meters)									
Predicted Distances to the 1 mv/m contour (kilometers)									

*Radial through principal community, if not one of the major radials. This radial should NOT be included in calculation of HAAT.

13. Has FAA been notified of proposed construction? **NO CHANGE IN EXISTING LICENSED FACILITY** ☐ Yes ☒ No
 If Yes, give date and office where notice was filed: _____

14. Environmental Statement (See 47 C.F.R. Section 1.1301 et seq.)

Would a Commission grant of this application come within 47 C.F.R. 1.1307, such that it may have a significant environmental impact, including exposure to workers or the general public to harmful nonionizing radiation levels?

☐ Yes ☒ No

If you answer Yes, submit as an Exhibit an Environmental Assessment as required by Section 1.1311.
 If no, explain briefly why not.

Exhibit No.
No Change

This application changes only the output frequency by 400 KHz from 104.9 MHz to 104.5 MHz. There are no other changes proposed to the existing licensed facility.

15. Unattended operation:

Is unattended operation proposed?

☒ Yes ☐ No

(a) If Yes, and this application is for authority to construct a new station or to make changes in the facilities of an authorized station which proposes unattended operation for the first time, applicant must comply with the requirements of 47 C.F.R. Section 74.1234 (FM Translators) concerning unattended operation.

☒ Yes ☐ No

(b) In the space below state the name, address and telephone number of a person or persons who may be contacted in an emergency to suspend operation of the translator should such action be deemed necessary by the Commission.

Name	Address (street or other description)	City	State	Telephone No. (include area code)
DAVID BECKER	P.O. BOX 103	HOMER	AK	(907) 235-7551

16. Is type approved broadcast equipment being specified?

☒ Yes ☐ No

If No, indicate date equipment was submitted to FCC Laboratory for approval. _____

I certify that I represent the applicant in the capacity indicated below and that I have examined the foregoing statement of technical information and that it is true to the best of my knowledge and belief.

SECTION 1.11 - LEGAL QUALIFICATIONS

NOTE: Applicants for new stations only:

1. Applicant is (check one of the following):

- | | | |
|-------------------------------------|--|---|
| <input type="checkbox"/> Individual | <input type="checkbox"/> General Partnership | <input checked="" type="checkbox"/> Corporation |
| <input type="checkbox"/> Other | <input type="checkbox"/> Limited Partnership | <input type="checkbox"/> Unincorporated Association |

If the applicant is a legal entity other than an individual, partnership, corporation or unincorporated association, describe in an Exhibit the nature of the applicant.

Exhibit No.
N/A

CITIZENSHIP AND OTHER STATUTORY REQUIREMENTS

2. (a) Is the applicant in compliance with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments?

☒ Yes ☐ No

(b) Will any funds, credit, or other financial assistance for the construction, purchase or operation of the station(s) be provided by aliens, foreign entities, domestic entities controlled by aliens, or their agents?

☐ Yes ☒ No

If Yes, provide particulars as an Exhibit.

Exhibit No.
N/A

3. (a) Has an adverse finding been made, or an adverse final action taken by any court or administrative body as to the applicant or any party to this application in a civil or criminal proceeding brought under the provisions of any law related to the following: any felony; broadcast-related antitrust or unfair competition; criminal fraud or fraud before another governmental unit; or discrimination?

☐ Yes ☒ No

(b) Is there now pending in any court or administrative body any proceeding involving any of the matters referred to in 3(a)?

☐ Yes ☒ No

If the answer to 3(a) or 3(b) is Yes, attach as an Exhibit a full disclosure concerning the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), a statement of the facts upon which the proceeding was based or the nature of the offense alleged or committed, and a description of the current status or disposition of the matter.

Exhibit No.
N/A

4. Has the applicant or any other party to this application had any interest in:

(a) a broadcast application which has been dismissed with prejudice by the Commission?

☐ Yes ☒ No

(b) a broadcast application which has been denied by the Commission?

☐ Yes ☒ No

(c) a broadcast station, the license for which has been revoked?

☐ Yes ☒ No

(d) a broadcast application in any Commission proceeding which left unresolved character issues against the applicant?

☐ Yes ☒ No

If the answer to any of the questions in 4 is Yes, state in an Exhibit the following:

- (i) Name of party having interest;
- (ii) Nature of interest or connection, giving dates;
- (iii) Call letters of stations or file number of application or docket number;
- (iv) Location.

Exhibit No.
N/A

REAL PARTY IN INTEREST

5. The applicant certifies that no agreement, either explicit or implicit, has been entered into for the purposes of transferring or assigning to another party any station construction permit or license or interest therein that is awarded as a result of a random selection or lottery.

☒ Yes ☐ No

If No, this application cannot be accepted for filing. See 47 C.F.R. Section 74.1232.

SECTION IV - CERTIFICATIONS

1. The applicant certifies that sufficient net liquid assets are on hand or are available from committed sources to construct and operate the requested facilities for three months without revenue. ☐ Yes ☐ No
2. The applicant certifies that: (a) it has a reasonable assurance of a present firm intention for each agreement to furnish capital or purchase capital stock by parties to this application, each loan by banks, financial institutions or others, and each purchase of equipment on credit; (b) it can and will meet all contractual requirements as to the collateral, guarantees, and capital investment; (c) it has determined that a reasonable assurance exists that all such (excluding banks, financial institutions and equipment manufacturers) have sufficient net liquid assets to meet these commitments. ☐ Yes ☐ No

Note: If this application is for a change in an operating facility, you DO NOT need to respond to Questions 1 and 2.

3. The applicant, if for a new FM translator station, certifies that it has not received any funds, legal or engineering services or anything else of value, directly or indirectly from the licensee or permittee of any FM broadcast station or any person associated with such station. See 47 C.F.R. Section 74.1232. ☒ Yes ☐ No
 If Yes, attach as an Exhibit an explanation identifying the source and nature of the financial support or assistance. Exhibit No. A-6
4. For applicants proposing translator rebroadcasts who are not the licensee of the primary station, the applicant certifies that written authority has been obtained from the licensee of the station whose programs are to be retransmitted. ☐ Yes ☐ No

Primary station proposed to be rebroadcast:

Call Sign	City	State	Channel No.
KWV-FM	HOMER	AK	278

5. The applicant certifies that it has contacted an authorized spokesperson for the owner of the rights to the proposed transmitter site, and has obtained reasonable assurance that the site will be available for its use if this application is granted. ☒ Yes ☐ No

That person can be contacted at the following address and telephone number:

Name	Dennis Adamson			Mailing Address or Identification
				P. O. BOX 196607
City	State	ZIP Code	Telephone No. (include area code)	
Anchorage	AK	99519-6607	(907) 264-7000	

6. For new station and major change applications only, the applicant certifies that it has or will comply with the public notice requirements of 47 C.F.R. Section 73.3580. ☒ Yes ☐ No

THE ORIGINAL OF THIS APPLICATION FORM MUST BE SIGNED BY THE APPLICANT. THE REQUIRED COPIES CAN BE CONFORMED. SEE 47 C.F.R. SECTION 73.3513.

The APPLICANT hereby waives any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

The APPLICANT acknowledges that all statements made in this application and attached exhibits are considered material representations, and that all exhibits are a material part hereof and incorporated herein.

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

In accordance with 47 C.F.R. Section 1.65, the APPLICANT has a continuing obligation to advise the Commission, through amendments, of any substantial and significant changes in information furnished.

**WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT.
U.S. CODE, TITLE 18, SECTION 1001.**

I certify that the statements in this application are true, complete and correct to the best of my knowledge and belief, and are made in good faith.

Name of Applicant	PENINSULA COMMUNICATIONS, INC.	Signature	David F. Becker
Title	David F. Becker, President	Date	April 8, 1991

EXHIBIT A-1

Peninsula Communications, Inc. (PCI) is currently the licensee of FM Translator station "K285DT" which serves the communities of Kenai and Soldotna, Alaska. The purpose of this application is to change the output frequency from 104.9 Mhz to 104.5 Mhz. This translator is located approximately 3 miles from Soldotna and about 8 miles from Kenai. The signal provides adequate coverage for Soldotna but is marginal for Kenai. Therefore, PCI proposes to license this FM translator station only to Soldotna and will be simultaneously filing with the FCC for an additional FM translator station Construction Permit to build a new FM translator station to serve Kenai on the vacated frequency of 104.9 Mhz. There are no other changes to the existing licensed facilities of K285DT, other than the proposed frequency change to 104.5 Mhz. The proposed frequency of 104.5 Mhz is completely clear with no co-channel or adjacent channel stations either above or below 104.5 Mhz within at least 200 miles. Second adjacent channel stations would be KKLK(FM) in Anchorage at 104.1 Mhz (over 65 miles distant), and our new proposed FM translator station to Kenai on 104.9 Mhz. The next FM station higher in frequency would be in Anchorage, KNIK(FM) on 105.3 Mhz. PCI believes there would be absolutely no interference problems as a result of the proposed frequency change. This is because the Anchorage stations do not have sufficient signal from 65 miles away to serve the Kenai-Soldotna area. There are currently two channels of separation between our FM translator on 104.9 Mhz and KNIK on 105.3 Mhz. The addition of another translator signal on 104.5 Mhz will still maintain two channels of separation from KKLK on 104.1 Mhz. PCI believes this fully complies with FCC Rules, Section 74.1202 regarding frequency assignments for FM translator stations, which "are not likely to cause interference to the reception of other stations".

License For a
Broadcast Translator Station

Call Sign: K285DT

Subject to the provisions of the Communications Act of 1934, subsequent acts, and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus hereinafter described.

1. Name of Licensee.....: PENINSULA COMMUNICATIONS, INC.
2. License term ending 3 a.m. Local Time.....: APRIL 1, 1989
3. Principal community to be served.....: KENAI AND SOLDOTNA, AK
4. Primary station.....: KGTL-FM CH 278, HOMER, AK
5. Via.....: DIRECT
6. Operating assignment.....: Channel 285, 104.9 Mhz
7. Hours of operation.....: Unlimited.
8. Transmitter.....: JONES, J-316 + J-319 + QEI 675T150 AMPLIFIER
9. Transmitter power output.....: 100 watts each output
10. Transmitting antenna location.....: MILE 3½, KENAI SPUR ROAD, ALASCOM RADIO
RELAY SITE, SOLDOTNA, AK
11. North Latitude.....: 60 31 57
West Longitude.....: 151 04 51
12. Transmitting Antenna.....: HDCA-10, SCALA, TEN ELEMENT YAGIS, STACKED,
13. Antenna supporting structure.....: SKEWED ARRAY, MAST MOUNTED ON A PLATFORM
ON A STEEL TOWER
14. Overall height above ground.....: 315 FEET
15. Main radiation lobe oriented.....: 90, 170, 235, and 300 DEGREES, T
16. Obstruction marking specifications.....: In accordance with the following paragraphs of FCC Form 715
(attached):
17. Conditions.....: N/A 1, 3, 12, and 21

The Commission reserves the right during said license period of terminating this license or making effective any changes or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained, so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the terms of this license, render such service as will serve public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the rights herein granted shall be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of the licensee, if a corporation, to any person without the written consent of the Commission. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Re: New FM Translator
Anchor Point/Seldovia, Alaska

Dear Mr. Tricarico:

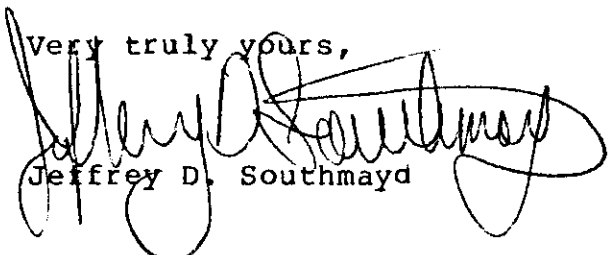

Transmitted herewith, in triplicate, on behalf of Peninsula Communications, Inc., is an FCC Form 346 application seeking a construction permit for an FM translator at Anchor Point/Seldovia, Alaska.

The application seeks a waiver of Section 74.1232(d) of the Commission's Rules to permit the operation of the translator beyond the proposed 1 mV/m contour of the primary station, KPEN(FM), Soldotna, Alaska, and within the 1 mV/m contour of KGTL-FM, Homer, Alaska. The applicant is the licensee of both of these stations and believes that the public interest will be served by a grant of the waiver due to the long-recognized shortage of broadcast facilities in the State of Alaska.

In addition, the applicant requests a waiver of Section 74.1235 to allow for an output power of 100 watts.

Please contact the undersigned should you have any questions regarding this application.

Very truly yours,

Jeffrey D. Southmayd

Encl.

Manufacturer SCALA ELECTRONICS INC.		Model H D C A - 5	Description 2 stacked 5 element YAGI's	
Orientation ² 190° & 315°	Height above ground ³ 53 ft.	Elevation of Site ⁴ 1135 ft.	Power gain G (multiplier) in lobe of maximum radiation relative to a halfwave dipole. ⁵ 2.76	

Effective radiated power (ERP)
(ERP = P X E X G) 0.248 kw.

Height of antenna radiation center above mean sea level 1165 ft.

¹Give basic type using general descriptive terms such as half-wave dipole, "bow-tie" with screen, corner reflector, 10 element Yagi, 4 element in-phase array, two stacked 5 element Yagis, etc.

²Show the direction of the main radiation lobe in degrees with respect to true north in a 360 degree horizontal azimuth, numbered clockwise, with true north as zero azimuth.

³Show height to topmost portion of structure, including highest top mounted antenna and beacon if any.

⁴Show the ground elevation above mean sea level at the base of the transmitting antenna supporting structure.

⁵Give the actual power gain toward the radio horizon.

6. Attach as Exhibit No. A-3 a vertical plan sketch for the proposed total structure(s) including supporting structure(s), giving height of center of radiation above ground, overall height of structure above ground, including lighting beacon (if any) and height above mean sea level in feet for all significant features for BOTH RECEIVING AND TRANSMITTING ANTENNAS. Also indicate any horizontal separation between receiving and transmitting antennas.

7. Will the proposed antenna supporting structure be shared with another station or stations of any class?

If Yes, list the call signs and class of such stations.

☒ YES ☐ NO

FM Translator K296 BH Alaska Village Missions, Inc.

8. Attach as Exhibit No. A-4 a polar diagram of the radiation pattern (relative field) of the transmitting antenna showing clearly the correct relationship between the major lobe or lobes and the minor lobes of radiation and a tabulation of the pattern at every ten degrees and all maxima and minima. Applicants proposing use of multiple transmitting antennas shall submit a composite radiation pattern. If a non directional transmitting antenna will be employed, i.e. an antenna with an approximately circular radiation pattern, check here ☐ and omit polar diagram.

9. Has FAA been notified of proposed construction? (NOT REQUIRED)

☐ YES ☒ NO

If Yes, give date and office where notice was filed.

10. Unattended operation:

a. Is unattended operation proposed?

☒ YES ☐ NO

If Yes, and this application is for authority to construct a new station or to make changes in the facilities of an authorized station which proposes unattended operation for the first time, applicant will comply with the several requirements of Section 74.734 (TV Translators) or Section 74.1234 (FM Translators) of the Rules concerning unattended operation.

b. In space below state name, address and telephone number of a person or persons who may be contacted in an emergency to suspend operation of the translator should such action be deemed necessary by the Commission.

**FCC NOTICE TO INDIVIDUALS REQUIRED BY PRIVACY ACT
AND THE PAPERWORK REDUCTION ACT**

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The principal purpose for which the information will be used is to determine if the benefit requested is consistent with the public interest. The staff, consisting variously of attorneys, analysts, engineers and application examiners, will use the information to determine whether the application should be granted, denied, dismissed, or designated for hearing. If all the information requested is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Accordingly, every effort should be made to provide all necessary information. Your response is required to obtain the requested Authority.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. 552a(e)(3) AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

FCC FORM 346

Sec. VI, Para. 1(a)

EXHIBIT A-1

REQUEST FOR WAIVER OF SECTION 74.1235

Applicant hereby requests a waiver of Section 74.1235 of the Commission Rules, which limits power output to 10 watts. Applicant requests 100 watts TPO to enable wider area coverage consistent with waivers granted other Alaska FM translator stations:...for example:

K249BY	Alaska Village Missions, Inc.	Kenai-Soldotna, Alaska
K285AA	Kodiak Community Church, Inc.	Kodiak, Alaska
K296DC	Kodiak Community Church, Inc.	Kodiak, Alaska
K252CF	KSRM, Inc.	Homer, Alaska
K261BE	Community Baptist Church, Inc.	Dillingham, Alaska
K265BJ	Peninsula Communications, Inc.	Kenai-Soldotna, Alaska

All the above FM Translator stations have been authorized 100 watts transmitter output power.

FCC FORM 346
2/25/86
Sec.I, para. 8

EXHIBIT A-5
REQUEST FOR WAIVER OF SECTION 74.1232(d)

Applicant is licensee of primary station KPEN(FM), Soldotna, Alaska. Applicant is also licensee of KGTL-FM, Homer, Alaska. Applicant (Peninsula Communications, Inc.) hereby requests a waiver of FCC rules, Section 74.1232(d) to permit operation of KPEN(FM)'s translator beyond KPEN's predicted 1 mV/m contour and within KGTL-FM's predicted 1 mV/m contour. Attached to this exhibit are copies of predicted 1 mV/m contours for both KPEN(FM) and KGTL-FM. Obviously, applicant has no objection to operation within KGTL-FM's predicted 1 mV/m contour, since applicant is licensee of both KPEN(FM) and KGTL-FM.

All funds, legal and engineering services will be provided by applicant as the licensee of the primary station, KPEN(FM).

Applicant believes that a grant of this waiver is in the public interest and consistent with other waivers granted to Alaska stations of Section 1232(d). Alaska lacks a diversified number of programming services due to the lack of FM broadcast stations serving this area. A grant of this waiver request will bring additional service to the residents of the Kenai Peninsula, which is not now available. KGTL-FM programs an "Adult Contemporary" music and news format, while KPEN(FM) programs an "Easy Listening" music and news format. Both stations are programmed to serve essentially different audience age demographics. KGTL-FM serves primarily the 18-34 age group while KPEN(FM) serves primarily the 35-plus age group.

Re: K224BU
BPFT-860409TR
Anchor Point-Seldovia, AK

Dear Mr. Tricarico:

Transmitted herewith, in triplicate, on behalf of Peninsula Communications, Inc. is an FCC Form 346 application seeking modification of the above-referenced construction permit. The modification consists of a request to move to unused Channel 257A in lieu of the present Channel 224A. The change is necessitated by interference experienced on the presently authorized channel (See Exhibit A-6 hereto).

Peninsula Communications, Inc. filed an application on August 19, 1986 seeking modification of K272CN, Homer, Alaska. The modification consisted of a change of the input channel for K272CN to Channel 257A in order to accommodate the change requested herein. For unexplained reasons, the FCC has no record of having received the subject request for modification of K224BU, Anchor Point-Seldovia, Alaska. Since K224BU serves as the intermediate translator station to K272CN Homer, Alaska, it is respectfully requested that the FCC give expedited consideration to the modification of K224BU requested herein. Due to the impending Alaskan winter and the public interest benefits inherent in its proposals, Peninsula Communications, Inc. believes that good cause exists for expedited consideration of the subject modification.

Should you have any questions concerning this matter, please contact the undersigned.

Very truly yours,

Stephen C. Simpson

Note: *If the proposed change is "minor" pursuant to Section 73.3572 of the Commission's Rules attach plots, comparing the existing and proposed protected signal contours as Exhibit No. ____

**For amendments to a previously filed application, submit only Section I and those portions of the form that contain the amended information.

3. (a) Is this application mutually exclusive with a renewal application?

☐ Yes ☒ No

(b) To the applicant's knowledge, is this application mutually exclusive with another application(s)?
If the answer to question 3(a) or 3(b) is Yes, state the following information.

☐ Yes ☒ No

Call letters or File No.

Community of License

City

State

(a) _____

(b) _____

GENERAL INFORMATION

YES NO

4. (a) Is translator applicant the licensee of primary station?

☒ ☐

(b) If answer to 4(a) is No, has written authority been obtained from the licensee of the station whose programs are to be retransmitted?

☐ ☐

5. Station Identification.

The Applicant certifies that it will comply with applicable station identification rules. See Sections 73.1201, 74.783 and 74.1283 of the Commission's Rules.☒ ☐

6. Is type approved broadcast equipment being specified?

☒ ☐

If No, indicate date equipment was submitted to FCC Laboratory for approval.

7. Would a Commission grant of your application be a major action as defined by Section 1.1305 of the of the Commission's Rules?

None of the provisions of Section 1.1305(a) is applicable

☐ ☒

If Yes, attach as Exhibit No. _____ the required statement in accordance with Section 1.1311 of the Commission's Rules.

If No, explain briefly.

8. If the application is for a new FM translator, have any funds, legal or engineering services or anything else of value been furnished, directly or indirectly, by the licensee, or permittee of any FM broadcast station or any person associated with such station?

☒ ☐If Yes, attach an explanation as Exhibit No. A-5, identifying the source and nature of the financial support or assistance.

Applicant is licensee of primary station, KPEN-FM

1. Facilities requested:

a. Output Channel No. 257A Transmitter Rated Power Output 100 W Proposed Principal Community(ies) to be served ANCHOR POINT - SELDOVIA City AK State

Frequency 99.3 MHz. *** SEE EXHIBIT A-6
